

**Totally committed to provide outstanding level of services to clients.**

**About AEGON Religare Life Insurance(ARLI) Sector: Insurance**

*Location: Mumbai, India Web: www.aegonreligare.com Headcount: 1300*

Religare, one of the leading integrated financial services institutions of India, has successfully partnered with AEGON, one of

the world's largest life insurance and pension groups and a strong provider of investment product, to launch a life insurance company in India - AEGON Religare Life Insurance Company (ARLI). Also, partnering is Bennett Coleman and Company Limited, the most prominent media house in the country

## **First successful 11i implementation by ManSoft in India**

### **ARLI Requirements**

ARLI was clear from day one regarding their requirement for a centralized finance repository which will support not only day-to-day business operations but will also provide key information for statutory as well as management reporting. The following key functionalities were identified:

- Centralized Liability Management
- Centralized Asset Management
- Centralized Governance & Reporting
- Automated interfacing with key non-Finance business applications.

### **ManSoft Services**

The project was divided into 2 parts-Core Financials standalone and Interfaces. The project has been delivered by a highly committed team of techno-functional resources.

### **Implementation Services**

- Design, configure & implement Oracle EBS Core Financials
- Develop automated interfaces between Oracle Applications & front-end insurance applications
- Develop custom reports for management information & analysis

### **Training**

- Core team training on the implemented modules of Oracle EBS
- End-user training for identified users of Oracle EBS

### **Post Go-Live support**

- Post-implementation support
- User inquiries concerning performance, functionality or operations
- Support reconcile financial & organization data as per requirements
- Functional / Technical knowledge transfer & training.
- Application bugs/ issues fixing, patching, performance tuning & instances health check.

### **Project Management**

- Prepare project plan
- Regular updates to stake holders via Project Status Reports
- Manage scope & user expectations
- Set project management framework (Communication Plan, change control, Issues & Risks Management plan, Change Management plan)
- Planning approach, project resources, activities & work breakdown structure
- Monitor & control project execution
- Status monitoring and reporting

## Oracle as a solution

AEGON has had very good experience with Oracle in the past across other geographies. ARLI was satisfied with the solution footprint that was developed by ManSoft team in partnership with Oracle

## Value Addition

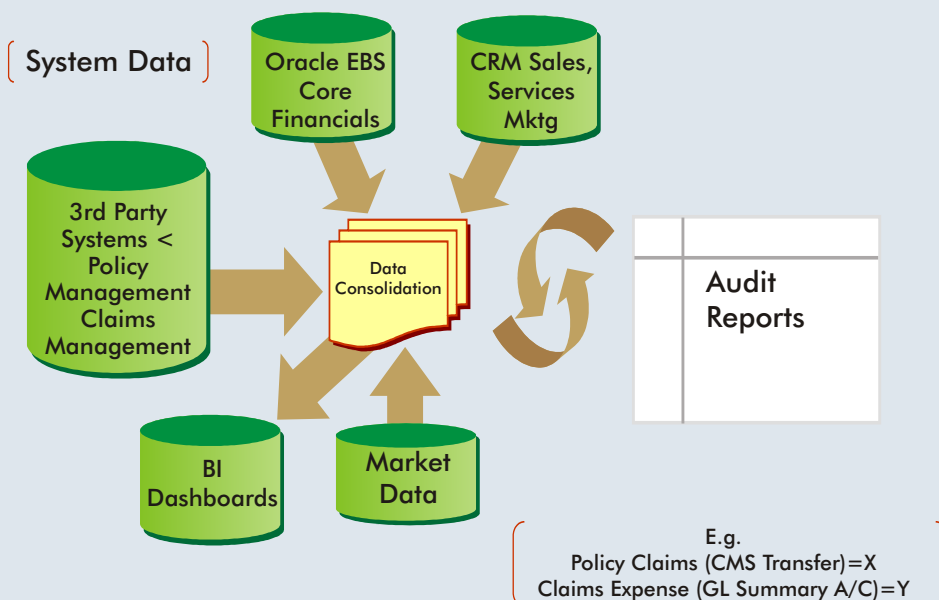

- The Interfaces with key ARLI applications are automated with built-in audit and error handling features
- The instance is an excellent example of India localization of Oracle EBS
- Our focus on the design has been to understand the IRDA requirements and map the same to the solution

## Benefits

Implementing the Oracle Core Financials modules helped ARLI to not only leverage the integrated functionalities of the various modules therein but also to have a scalable model which can match the growth in their business operations, either by customer-base or by geography.

ARLI now has a financials solution that is the 'single' point-of-reference for any financial data required across the organization.
